

SRCS Hope Week 2023

PARENT EDUCATION & SAFE ENVIRONMENT RENEWAL OPPORTUNITY

ENDING THE SILENCE

TUESDAY, OCTOBER 24TH

6:00PM, PARISH COMMONS

Join us for a mental health presentation for parents and caregivers to help you better understand the emotional and behavioral difficulties that may be early warning signs of mental health conditions in children and adolescents.

This program works hand-in-hand with the presentation students in grades 5-8 will receive on Wednesday, October 25th. This parent presentation will help foster conversations, improve understanding, and decrease the stigma that often surrounds mental health conditions.

The program covers issues frequently faced by parents and other family caregivers to give them a better understanding of. . .

- facts about mental health and youth
- early warning signs of a mental health condition
- how to work with schools to support their child's education
- resources available in the community
